

FamilySmart Parent in Residence (PiR) –

BC Children’s Kelty Mental Health Resource Centre

Part-time

Who we are

FamilySmart® is a non-profit that works to improve the experience and quality of services, information and support for children and youth with mental health challenges, and for their families or the caring adults in their lives.

Position Summary

The FamilySmart Parent in Residence is a parent who has their own lived experience supporting a child or youth with a mental health and/or substance use challenge. Lived experience is the foundation of all of FamilySmart service offerings. When young people are struggling with their mental health, they – along with their families or the caring adults in their lives - need people with lived experience to come alongside them to listen to them, to care, to know and to understand what it’s like for them and assist them in getting quality services, information and support.

The PiR uses their own lived experience and knowledge to offer Peer Support, resources and information, system navigation, education, and mentoring to other families and service providers who contact the Kelty Mental Health Resource Centre.
